

IN THE SPECIFICATION

Please amend the paragraph beginning at page 8, line 5, to read:

Subsequently, likewise, with respect to the construction machines for rent held by the branch office a1, information related to the changeable specification such as equipment and attachment is input using the network terminal 3 and held by the network ~~server~~ server 1. In this embodiment, the changeable specification such as an underbody (a rubber shoe or a rubber crawler or a normal iron crawler), an arm (a short arm or a long arm), and an attachment (being provided with a slope finishing bucket, a nibbler, a breaker or the like, or being provided with a standard bucket) are input. This information related to such changeable specifications as described above is updated and input when the change is made.
